YEARS

Smarter Sealing for a Safer Tomorrow

TT Gaskets: Your Lifecycle Partner for Sealing Solutions

At TT Gaskets, we provide comprehensive support throughout your product's lifecycle, guaranteeing top performance and quality at each step.

Co-Designing and Designing

We collaborate with you on geometrical designs and material selection, combining materials to meet your specific requirements.

Test Samples

Our versatile manufacturing capabilities enable us to produce both large and small quantities of test samples for thorough evaluation.

Official Samples

We provide official samples, including PPAPs, physical components, and all necessary documentation to meet regulatory standards.

Ramp-Up Production Batches

Our manufacturing process is selected based on technical demands and quantities, ensuring a smooth transition to full production.

Production Batches

We offer flexible manufacturing options, allowing for a switch to more price-competitive processes as production scales up.

Aftersales

We support you with individual marking, special packaging, and service kits, ensuring your operations run smoothly.

Global Reach

While many gasket companies operate locally, TT Gaskets stands out with a global presence. We export to over 50 countries, ensuring our high-quality services are available wherever you are. Our competitive logistics services, including the eco-friendly TTG Green Delivery, guarantee efficient and sustainable delivery.

With new subsidiaries in strategically important locations and an extensive global distribution network, we provide exceptional service to global customers. Enjoy our expertise and support, no matter your location.

Choose TT Gaskets for exceptional service and support throughout your product's lifecycle, anywhere in the world.

We Know Our Way Around Your Business

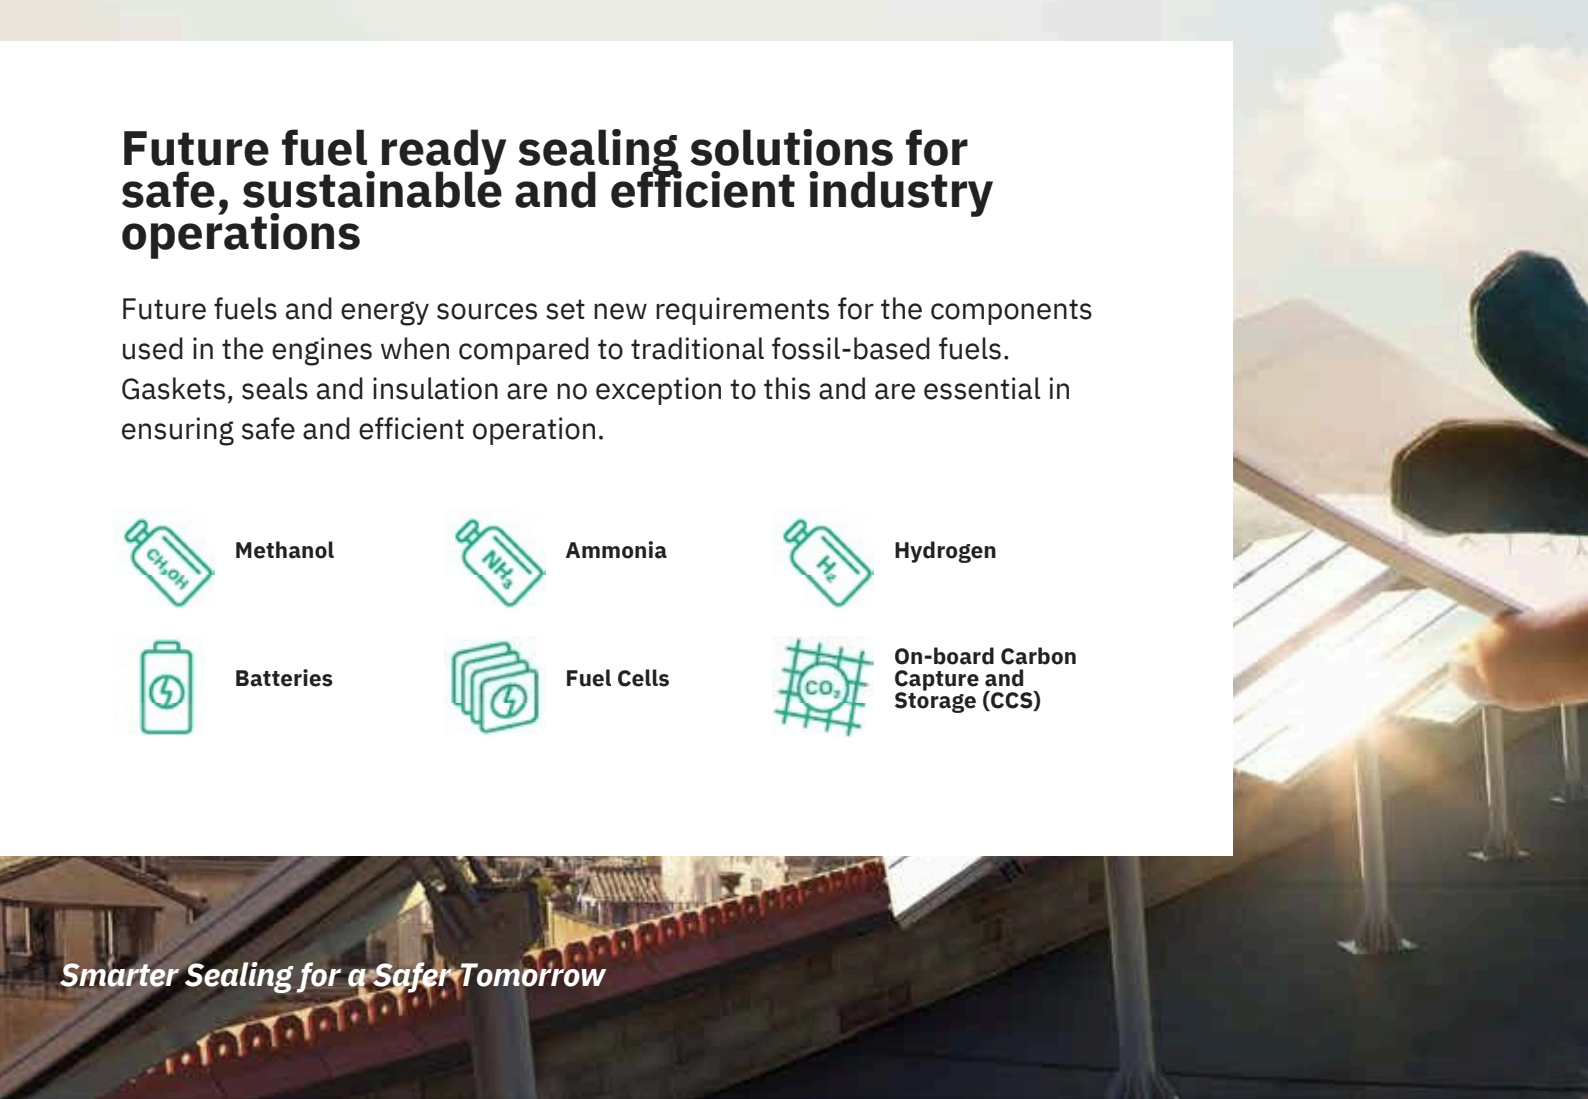

As the leading Nordic manufacturer of gasket sand shims,we at TT Gaskets have designed and delivered high-quality technically accurate products and sealing services to the world's major industries.

- ENGINE & MOTOR INDUSTRY
- ENERGY INDUSTRY
- CHEMICAL & PETROCHEMICAL INDUSTRY
- VALVE INDUSTRY
- PUMP INDUSTRY
- PULP & PAPER INDUSTRY
- ENVIRONMENTAL TECHNOLOGY
- MARINE INDUSTRY
- FOOD PROCESSING INDUSTRY
- HVAC
- MINING INDUSTRY
- LIGHTING INDUSTRY

Future fuel ready sealing solutions for safe, sustainable and efficient industry operations

Future fuels and energy sources set new requirements for the components used in the engines when compared to traditional fossil-based fuels. Gaskets, seals and insulation are no exception to this and are essential in ensuring safe and efficient operation.

- Methanol
- Ammonia
- Hydrogen
- Batteries
- Fuel Cells
- On-board Carbon Capture and Storage (CCS)

Sustainability at Our Heart

We are building a more sustainable,smarter,and easier-to-use world for ourselves and future generations

High quality and intelligent product & service solutions

- Tighter, more sustainable and smarter world – one gasket at a time
- Maximizing the environmental friendliness of our customers
- Ecological packaging (plastic free) and logistics solutions

Taking care of human rights & stakeholders

- Commitment to good governance, good management, and continuous supplier development
- Commitment to the UN Sustainable Development Goals and the FBN 2020 Pledge
- We comply with the SA8000 social responsibility standard.

Sustainable growth with respect for nature

- Carbon neutral TTG 2025
- 100% sustainably produced energy, of which 30% own solar energy
- Minimized waste and circular economy
- Annual environmental actions
- Ecovadis Gold

Smarter Sealing for a Safer Tomorrow

Green Delivery

Here at TT Gaskets, we're stepping up our game with eco-friendly delivery packaging!
Think of less waste, more recycled materials, and lighter shipping loads – it's a win-win for everyone.

But wait, there's more! Our green approach isn't just a buzzword – it's a commitment that stretches from our warehouse to your doorstep. We're talking paper tape, bags, and boxes, along with smart support structures crafted from excess materials.
Say goodbye to excessive packing and hello to a smoother, more sustainable shipping experience. It's not just about being eco-friendly; it's about making your life easier too.

Let's ship smarter and greener together!

Moulded Rubber Products & Metal-to-Rubber Bonded Gaskets

We offer a widerange of versatile and durable rubber components for use in many different industries for sealing, cushioning and insulation purposes.

Whether you need a customized product or a high-volume mass-produced product, our team of experts can help you find the right solution for your application. Our products are manufactured to meet the highest industry standards, ensuring quality and reliability.

We have a wide range of materials available, everything from NBR, HNBR, NBR/PVC, EPDM, CR, FKM and silicone to many more special compounds based on the use application.

Metallic Products

Our metallic product range includes everything from shims, distance and support plates and special washers to more – all tailor-made to your requirements at our in-house production facility.

Our metallic components are precisely manufactured using laser cutting, turning, or pressing, tailored to the required accuracy and volume. We accommodate production runs of all sizes, from a single unit to one million parts. Our components are available in thicknesses ranging from 0.05mm to 25mm. For the most precise requirements, we achieve tolerances within hundredths of a millimeter.

- Distance and Support Plates
- Brackets
- Shim Kits
- Adjusting Plates
- Locking Plates Washers
- Special Flanges

Smarter Sealing for a Safer Tomorrow

Insulation and Soundproofing

If you need noise damping, vibration control, or heat protection made from cellular foam materials, PTFE, premium wear resistant rubber, wool felt, glass wool, or stone wool, to name a few, we are here to help.

Our versatile manufacturing capabilities and extensive material selection ensure we can meet your requirements and deliver the parts with short lead times. Simply provide your dimensions or drawings to us and we'll manufacture the components accordingly.
Whether you need thermal, electrical, or sound insulation, we've got the right solution for you.

- Sound Insulation
- Vibration Damping
- Thermal Protection Insulation
- Electrical Insulators and Conductors

Over 3500 gasket materials

The most commonly used and popular materials in the industry are quickly and competitively available through us. Our selection includes almost all well-known gasket brands of the following materials. Discover the most sustainable and competitive materials by contacting our sales team and asking about our Preferred Materials -grades.

- Graphite
- Mica
- Rubber (NBR,
- HNBR, EPDM, CR ,NR, FKM)
- PTFE
- Cellular Plastic
- HDPE
- Aluminium
- Silicone
- Cellular Rubber
- PP
- PUR
- PU
- Carbon Steel
- Fiber
- etc.
